

제17회 춘계학술대회(A홀)

일시 : 2022년 6월 17일(금)

제17회 춘계학술대회(B홀)

일시 : 2022년 6월 17일(금)

08:30-09:00	등록				
09:00-09:10	인사말				
Session I	Mini-review of ASCO/ESMO GI Cancer Symposium (What's new in 2022) 좌장: 김호각(대구가톨릭대), 임윤정(동국대)		Session I	Free paper session (5 - 6개 발표) 좌장: 이수택(전북대), 이상협(서울대)	
09:10-09:30	1. Esophageal/stomach cancer	이문원(부산대)			
09:30-09:50	2. Colorectal cancer	김성중(조선대)			
09:50-10:10	3. Pancreatobiliary cancer	안동원(보라매병원)			
10:10-10:20	Q&A				
10:20-10:40	Coffee break				
Session II	IASGO joint session : debate or controversial issues of GI cancer (English) 좌장: 송시영(연세대), Kyoichi Takaori(Kyoto university)		Session II	New diagnostic paradigm in GI disease (Combined session of KSGC, KCHUGR, KSNM) 좌장: 전훈재(고려대), 정대영(가톨릭대)	
10:40-11:05	1. Treatment of Obstructive Gastric Cancer with distant metastasis; Palliative Chemotherapy	김성은(고신대)	10:40-11:05	Updated diagnostic methodology in GI motility disorder 정기욱(울산대)	
11:05-11:30	2. Treatment of Obstructive Gastric Cancer with distant metastasis; Surgery	IASGO(TBD)	11:05-11:30	Application of AI in endoscopy for GI cancer 방창석(한림대)	
11:30-11:55	3. Multi-modality treatment for oligometastatic pancreatic cancer : Surgical and local therapeutic concept from surgeon's view point	IASGO(TBD)	11:30-11:55	Application of AI in pathology for GI cancer 이경분(서울대병리학과)	
11:55-12:20	4. Multi-modality treatment for oligometastatic pancreatic cancer : Conventional chemotherapy and immunotherapy from physician's view point	조인래(서울대)	11:55-12:20	Application of AI in radiology for GI cancer 김남국(울산대)	
12:20-13:00	Lunch				
13:00-13:20	총회				
Session III	Genomics and clinical application in GI cancers 좌장: 김성수(가톨릭대), 방승민(연세대)		Session III	Plenary free paper presentation 좌장: 박선자(고신대), 박정엽(연세대)	
13:20-13:45	1. Interpretation and clinical application of NGS(next generation sequencing) in GI cancer	박성열(GENOME INSIGHT Inc)	13:20-13:45	위식도암연구회 (G-NET or esophageal cancer, oral microbiome)	
13:45-14:10	2. Practical implications of the molecular and immunologic classifications in colorectal cancer	배정모(서울대병리과)	13:45-14:10	대장암 연구회 (Early age onct colorectal cancer or stent)	
14:10-14:35	3. Understanding and therapeutic application of glutamine metabolism in pancreatic cancer	한정민(연세대약대)	14:10-14:35	췌장담도암 연구회 (AoV cancer registry)	
14:35-15:00	4. New insights into pancreatic cancer biology based on molecular subtyping	노재석(연세대생명과학)	14:35-15:00	영양연구회 (KSGCR-NRF related study), 삶의질 연구회	
15:00-15:20	Coffee break				
Session IV	Controversies and advance in the management of non-metastatic pancreatobiliary cancer 좌장: 황진혁(분당서울대), 박병규(국민건강보험일산병원)		Session IV	Clinical advice needed in difficult situations of gastrointestinal cancer 좌장: 진윤태(고려대), 김현수(전남대)	
15:20-15:45	1. Neoadjuvant therapy for resectable/borderline resectable pancreatic cancer	조중현 (연세대)	15:20-15:45	1. Peritoneal carcinomatosis: Cytoreductive suregry vs. HIPEC vs. PIPAC 백승혁(연세대)	
15:45-16:20	2. Optimal treatment sequencing for Locally advanced pancreatic cancer	이동욱 (경북대)	15:45-16:20	2. Malignant colorectal obstruction: surgery vs. stent 김정호(가천대)	
16:20-16:45	3. Neoadjuvant/adjuvant therapy for biliary tract cancer	김재환 (분당서울대)	16:20-16:45	3. Overcoming chemo-resistance in gastric cancer 문희석(충남대)	
16:45-17:10	4. Novel radiation strategies for pancreatobiliary cancer	이익재 (연세대)	16:45-17:10	4. Endotherapy for cancer bleeding and post-operative complications 조영신(순천향대)	
17:10-17:20	Best presentation award				
17:20-	Adjourn				
Poster session: 1-5 (컨벤션 C홀)
